PRODUCT INFORMATION

<p>Beauty Bark: Fine • Medium • Coarse Our bark is composed of a Hemlock/ Fir mix. Excellent for: Landscaping, mulching, retarding weed growth, moisture retention and overall beautification.</p>
<p>Steer♦Gro™ : An aged barnyard manure and sawdust mix. An all-natural soil conditioner that promotes healthier and greener; vegetable gardens, lawns, flower beds, planters and baskets.</p>
<p>Play Chips: Dog Kennels • Absorbs pet odors • Creates a dry bedding Children's Play Areas • Soft landing surface • Dries fast after rain</p>
<p>Topsoil- 3 Way Mix: 60% Kent Valley loam, 30% Steer♦Gro™, 10% sand. A fine, screened and blended all-natural soil mix. Excellent for: Gardens, flower beds, new lawns, landscaping and as a top dressing for existing lawns.</p>
<p>Compost Mulch: A rich, dark colored material made from composted yard debris and forest by-products. Excellent for: Soil amending, landscape top cover, mulching and more.</p>
<p>Sand and Gravel: 5/8" Minus - 1 1/4" Minus - Washed Sand 1/2"- 7/8" Washed - 1 1/2" Washed - Pea Gravel</p>

Material Calculator

How much material do I need?

*Figure your total square footage (length x width)
 *Use formula below to determine the number of cubic yards needed:
 For a 3-inch depth, divide total square footage by 108
 For a 4-inch depth, divide total square footage by 81
 *Above calculations are not factored for compaction

Suggestions:

*For establishing new lawns a 4-inch base of topsoil is ideal
 *For weed control use a minimum 3-inch depth of Bark

GRAVEL

***** Limited to White Area Only*****		
5 - 9 yds	\$34.95yd + \$75.00 del + tax	Mon - Sat
